1. Qualitative Information Regarding Quarterly Results

(1) Explanation Regarding the Operating Results

With regard to the world economy during the first half of FY 2018 (April 1, 2017 to September 30, 2017), although in the United States the recovery of its economy continued, economic growth in Japan and Europe was able to record only a slight increase. In China, the tendency of sluggish economic growth continued and in the emerging economies, although movement toward recovery in these economies was seen, weakness in the economy remained in some areas.

In these circumstances, in order to achieve continued increases in our business results, the Shin-Etsu Group endeavored (1) to deepen its relationships with its customers and further expand its global customer base; (2) to constantly carry out product development that strongly supports our customers' needs, improve product quality and achieve further differentiation in technologies; and (3) to continue our policy of strict cost management.

(2) Explanation Regarding Information Relevant to Forecasts such as Consolidated

Business Forecast

The world economy contains many uncertain factors and it does not allow for optimism.

Among the main products of the Shin-Etsu Group, there are those products that will be greatly affected by such factors as fluctuations in raw material prices and in market conditions as well as in supply and demand conditions, In addition, over 70% of the Group's sales consist of sales outside of Japan, and exchange rate fluctuations affect our company's business. Exchange rate fluctuations also affect us when converting Shin-Etsu Chemical's overseas companies' business results into Japanese yen.

Facing such a situation, the Shin-Etsu Group will carefully focus on developments in world markets and aggressively develop our sales activities while accurately capturing trends in demand. At the same time, we will further accelerate the development of our global business by such means as constructing manufacturing bases at optimal locations in the world and strengthening and expanding existing facilities. In addition, we will further focus on enhancing productivity and product quality, and at the same time, we will strive to develop products that have value for customers and we will also strive to assure the stable supply of our products. For this purpose, while continuing to maintain a sound financial base, we will proactively utilize our financial strength to carry out appropriate investments in a timely manner.

Going forward, we will work to create value to meet the needs of the market and society over the long term.

As mentioned on the cover page of this summary of the Shin-Etsu Group's financial results, no revision has been made to the business forecast we announced on July 25, 2017.
