

## Business Principle

**We contribute to people's living, society and industry through value creation in materials and technologies, while observing all laws and regulations as well as conducting fair corporate activities.**

As a company trusted by society, the Group engages in a variety of corporate activities that always place a priority on safety and the environment.

We are also making efforts to contribute to environmental conservation by providing key materials and technologies.

The Group will build upon products, sales capabilities, manufacturing technologies and development capabilities accumulated up to now and continue taking on a wide range of global challenges to contribute to the development of society.
